Spokane
2600

http://www2.spokane2600.org

Do you like technology? Do you like to tinker?
Are you interested in information security?
Do you want to understand more about how things work?
Then come to the monthly Spokane 2600 meetings.

1st FRIDAY OF EACH MONTH.

5:00 pm to 8:00 pm Pacific Time.

Now meeting at Starbucks in North Spokane

4727 N Division St

The meetings include discussions and demonstrations on topics that range widely. Anything to do with hacking in both the old positive send of the word (understanding, playing with, and using technologies in a way not originally intended), and the media-distorted negative version of the word (hackers now being synonymous with computer criminals — FYI, Bill Gates of Microsoft, Steve Jobs and Steve Wozniak of Apple, Bill Joy of Sun, and many others were considered "hackers" originally), how to hack, how to deal with cyber-criminal attacks, etc. This isn't just for computers, it can be communications devices, cameras, radios, the list is diverse.
