

Who's in charge, you or your computer?

Are you interested in technology? Feel free to join us whether you are new to computers or an expert. Our goal is to bring people together that share an interest in technology so that we may share information and ideas and our hope is that we can all benefit greatly from the monthly meetings that we hold as well as from the website resources we have. Our interests are wide and we try to remain open minded to all ideas and ways of thinking. If you or someone you know is interested please feel free to join us as we believe the more information we share the more we all benefit. You can get more info at
